PROFILE SUMMARY
An Information Technology student with great proficiency in developing a program by using academic skills and practices. I have almost 3 years of experience in programming and am skilled in using Html, Web design, and Python. Familiar with other programs like Java, MySQL, and Visual Basic. Independent, Hard working, and composed when working with other programs/projects, but performs better in groups where people can test and share ideas.

WORK EXPERIENCE
-Student
Mangaldan National High school(Senior High school) | 2021-2022
   I had work experience during Work Immersion on Senior High School and developed some skills related to my course.
- Identified a problem and solved it.
- Developed a program for the school's comfort by teamwork.
- Worked on Projects.
- Come up with great ideas for improvements.

PROJECTS
Timetable Management System
Group project | *2021-2022*
HTML | Javascript | Android | MySQL | C# |
Worked with a team to design and develop a timetable system database, which stores the school's staff and student's personal details, to improve the current system in our school.
- *Can provide a database for storing records and information.*
- *Allows the admin to add, edit, delete, save and update records or information if some changes occur.*
- *It can generate reports for example class schedule, class list, instructors list, hall list, department list and school year with different semesters.*

ACTIVITIES
Programming Circle - MEMBER
Student Organization, PHINMA Education | *Aug. 2022 - Nov. 2022*
- *An active member of the organization since August 2022 and helped other members on their codings.*
- *Organized group of IT students from different sections.*
- *A helpful group with people that expertise on coding, and teachers that give assistance on certainty.*
